

E12 CANTILEVER Secondary Cleaner

GET THE **EAGLE EDGE!**
MADE IN THE U.S.A.

**2" Schedule 80 Mounting Tube
Powder Coated**

**Cleaners 18-72" Belt Width
Standard Blades Are Full Belt Width -2**

AVAILABLE IN ALL STAINLESS STEEL **BENEFITS**

By designing the tensioner bar behind the blade, vine and stringy carryback are prevented from wrapping up the tensioner. This wrapping up, which interferes in the blade and full belt contact, is resolved. This design also prevents too much tension that causes belt damage and premature blade wear.

UNIVERSAL MOUNTING BRACKET

- † Can be flange mounted or foot mounted
- † Composite molded bushing eliminates corrosion and build-up between bracket and mounting tube. Allow constant blade pressure to belt.
- † Elongated holes allow for easy alignment of installation.
- † Set screw that allows pre-tensioning of cleaner making it more accurate.

**Paper Mill,
Wood Chip &
Recycling
Plants**

Our E12 Cantilever Secondary Cleaner is designed for specific carryback problem areas.

- † Stringy carryback in recycling plants
- † Vine carryback in debarking applications

EZ TORSION SYSTEM LIFETIME WARRANTY

This revolutionary design is the simplest and most accurate tensioning system on the market.

Only 4 components make up the EZ Torsion System.

- † Universal Torsion Mounting Bracket
- † Stainless Steel Spring
- † EZ Torsion Ring
- † Tension Guide Cap

Ev-r-wear™ Blade

Our special formulated urethane with additives has been tested and proven to last longer than any other blade on the market.

WE GUARANTEE IT . . .

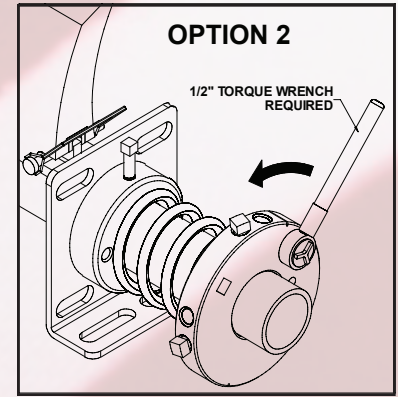

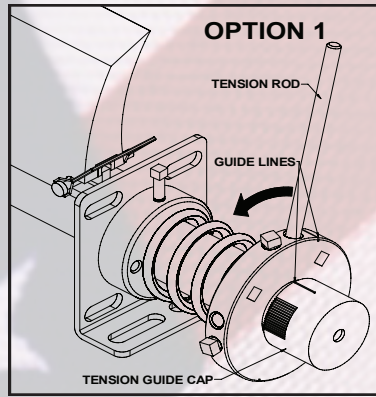

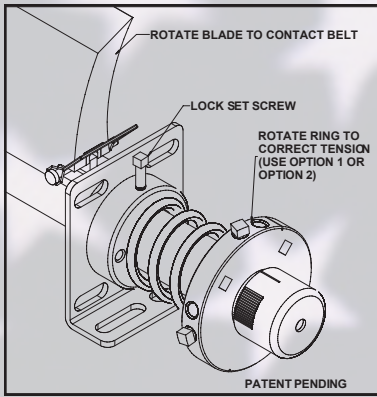

- † Premium urethane
 - † Additive for lubricity (non-stick)
 - † Additive for high abrasion
- "With over 35 years molding experience."

1-866-713-8985

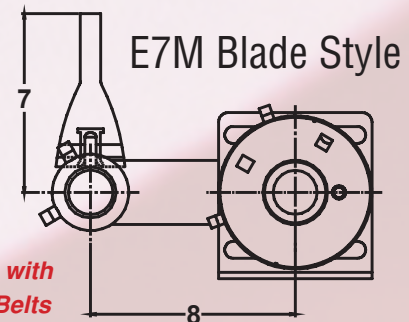

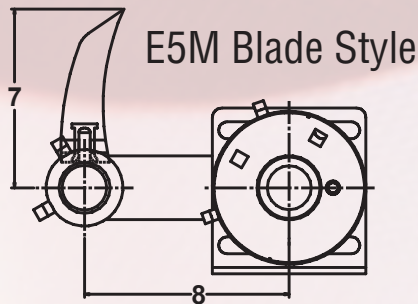

BY FAR THE EASIEST CLEANER TO INSTALL AND MAINTAIN

Once the correct tension is set, tighten the 2 set screws on the Easy Torsion Ring then release the set screw on top of the Universal Torsion Mounting Bracket, to transfer the tension to the blade.
