Eagle Universal Telescoping Mount

GET THE **EAGLE**
EDGE!
MADE IN THE U.S.A.

PATENT PENDING

By developing the first Universal Telescoping Mount for attaching primary cleaners on a conveyor system, AE announces freedom. Freedom from needing to rig something. Freedom from wasted time designing a mounting bracket. Freedom from extensive future maintenance.

We did it for you!

Made of heavy gauge steel tubing and pre-drilled holes for installations, this low cost mount provides quick installation of primary cleansers with the L Bracket. Mount on top, underneath, outside, inside of the universal telescoping bracket.

No one else offers these options!

Little is required to mount the bracket to a conveyor frame. Weld or bolt the provided brackets to get the proper location of cleaner blade to belt pulley. Then slide in tubing to brackets, mount your Eagle Belt Cleaner to the tubing and slide into position. Tighten in place with locking bolts provided.

It's that simple!

ORDERING INFORMATION

<i>Tube Length</i>	<i>Universal Telescoping Kit</i>	<i>Kit Weight</i>
30"	UTM30	32 lbs.
48"	UTM48	40 lbs.

Kit includes 2 brackets and 2 tubes.
